

TRP

SPYRE

TWIN PISTON MECHANICAL DISC BRAKE

SYSTEM WEIGHT: TBD

ROTOR WEIGHT: TBD

CHOOSE THIS

TRP's revolutionary new twin piston mechanical disc brake, the Spyre, is literally twice as good as previous mechanical disc designs. Designed for road and cyclocross, compatible with all drop bar brake levers

FEATURES AND SPECS

- ❑ Alloy U-type lever arm
- ❑ Forged aluminum caliper and master cylinder
- ❑ U-shaped arm allows the cable to actuate both pistons simultaneously
- ❑ 2 piston design allows for extra pad clearance
- ❑ One piece forged aluminum caliper design
- ❑ Rotor option: 140mm, 160mm
